YANKEE BOAT WON

Defender Ahead in First Race for America's Cup.

WAS VALKYRIE WEATHER

But the Hope of England Was Left Away Behind.

VERY NEARLY NINE MINUTES

Twenty Thousand People Witnessed the Contest From the Largest Flotilla Ever Gathered Off Sandy Hook—Scene of Hilarious Joy When the Aluminum and Bronze Sloop Crossed the Line Ahead—The British Beauty Got Away a Little Ahead and Led for Nearly an Hour—All the Details of the Great Victory.

New York, Sept. 7.—All hail Defender! The aluminum and bronze boat defeated Valkyrie III eight minutes, forty-nine seconds in the first of the races for the America's cup today.

Twenty thousand people on the greatest flotilla that ever assembled off Sandy Hook, witnessed the race, and there was a scene of hilarious joy when the Defender crossed the line fully two miles ahead of Lord Dunraven's boat.

The joy of the multitude was undoubtedly increased by the fact that Valkyrie led the Yankee boat for the first hour. They waited away from the Defender in a way that led Englishmen to fondly hope that their day had come at last.

Bright visions of the America's cup floated before their eyes, while the patriotic

C. Oliver Iselin, of the Defender.

FRANCE NOT SORRY.

Claims Made That She Could Do Nothing Else With Waller.

Paris, Sept. 7.—The Journal Des Debats in an article discussing the case of ex-Consul Waller, to-day, declares that letters written by Mr. Waller, which were seized by the French authorities in Madagascar, have finally proved the case against him. The Journal Des Debats adds:

"Mr. Waller's protestations will fail to invalidate the judgment of the court-martial. It is an unfortunate affair, but what else could we do?"

Trying to Prove Arson.

Buffalo, N. Y., Sept. 7.—The police this morning discovered an important piece of evidence against Vaughan and Parker, who are charged with having started the fire which destroyed the Academy of Music. They have a man, whose name they will not disclose, who it is alleged, was offered \$1,000 by one of the firm if he would fire the Academy.

Free Silver Editors.

Little Rock, Ark., Sept. 7.—The State convention of Arkansas editors favorable to the free coinage of silver at the ratio of 16 to 1 was well attended today. The convention decided to name the association The Democratic Bimetallic Editorial League of Arkansas.

Fire Escapes Were Useful.

Louisville, Ky., Sept. 7.—The board of trade building was damaged by fire at noon today to the extent of \$20,000. Origin unknown. Several female stenographers were carried out of the building by way of the fire escape.

Grand Rapids Gets It.

Philadelphia, Sept. 7.—At this morning's session of the National Letter Carriers' convention, Grand Rapids, Mich., was selected as the place for holding the next convention.

Americans, who were packed tier above tier on the many decked excursion steamers, were very glad.

A host, left over the marine amphitheater when the boats started, and all the joys of yachting seemed gone when the Valkyrie easily moved to the front and showed her heels to the Defender. Cheers and enthusiasm were missing for a full hour when the British boat was leading.

FIVE-KNOT BREEZE.

There was only a five-knot breeze at the start, and as predicted in the dispatches, Valkyrie was going through the water faster than the Defender in the light air. There was a lumpy sea on and quite a swell came in from the ocean, but the buffeting of the waves against the Britisher's bow did not keep her back.

She outpointed and outdistanced the Herreshoff boat to the amazement of the great crowd of spectators. But after establishing a lead of a good quarter of a mile, the wind having freshened, the cup challenger failed to hold her own and the Yankee yacht began to gain.

When the crowd saw it there was a general brightening up, and it became plain that the product of American brains was picking up her rival, a cheer went up and tugboat whistles screamed. As both yachts went beating to windward, it was impossible to say just when the Defender overhauled the British boat, but it was about 1:25 p. m. when the boats had covered nearly half of the fifteen miles of windward work.

GOT HER GAIT.

Once the Defender got her gait there was no catching her, and as the wind continued to freshen she opened up a very large gap between her stern and the bow of Lord

FORTY BURNED TO DEATH

Miners Caught in a Shaft With No Chance to Escape.

OSCEOLA DIGGING ON FIRE

Two Hundred Men and Boys Were at Work When the Flames Broke Out—Terrible Rush for the Surface—Many Were Successful—No Hope for Those Behind.

Calumet, Mich., Sept. 7.—At about 3 o'clock this afternoon fire broke out in the shaft of the Osceola mine, and at this time it is more than probable that forty men and boys have been burned to death or suffocated.

The names of men known to be in the mine are as follows:

—Trenton, mine boss; Richard Bicket, Michael Johnson, Richard Grenfell, Richard Suflet, John Matzen, Jacob Bryant, Francis Lumber, Alex. Danfeli, John Cutlip, Thomas Curtis, Robert Jones, Peter Martin, Joseph Sappie, James Harrington, William Donald, Barney Elgore, Antonio Szwedek, administrators, and Peter Stanger and Walter Dolle, drill boys.

IN A SHAFT.

The fire started in shaft No. 3, which is used to carry the miners to the surface from the mine, and when it broke out all of the men and boys employed in the mine, about 200 in number, made a rush for the shaft in the hope of being taken to the surface.

The fire was too rapid for them, however, and the chance of escaping by the shaft was entirely cut off by flame and smoke.

The majority of the imprisoned miners made a break for a cross cut and in that way managed to reach another shaft from which they were taken to the top. Forty were missing when the roll was called.

Within a short time after they had reached the surface, smoke began pouring from all the shafts and the escape of the men below was entirely cut off.

NO HOPE AT ALL.

The men in charge say now that there is not the slightest chance for any of the men now in the mine to escape with their lives.

If they are not burned, they must have been choked by the dense smoke within a short time after the fire started.

Fortunately the mine is not as heavily timbered as some of the mines in this locality, and it will not take it a great while to burn out. As the thing now stands, nothing can be done for the men, and no effort is being made to extinguish the flames.

There is nothing known of how the fire originated.

SCHOONER WRECKED.

Captain, Crew and a Passenger Drowned and Cargo Lost.

Brownsville, Texas, Sept. 7.—A schooner has just reached here that the report Garlock, of Lake Charles, La., was wrecked fifteen miles south of the Rio Grande, August 19.

Her cargo of lumber, Capt. B. Tanasara, a crew of four men, and one passenger, Joseph Simon, Jr., of Port Isabel, were all lost.

FAILED TO HALT.

Soldiers at Ishpeming Fire on the Strikers to Frighten Them.

Ishpeming, Mich., Sept. 7.—Strikers who attempted to cross the guard line at the Lake Angeline East End mine where the shovels in operation have been fired at by the guards. They were requested to halt, but did not do so. The aim was not taken to injure or kill.

The men were surprised and somewhat frightened and quickly got out of the way.

Negro Boy Whipped.

(Special to The Times.)

Richmond, Va., Sept. 7.—Wesley Wingfield, the negro boy who was sent on to the grand jury in Lumburg on the charge of an attempted assault on the nine-year-old daughter of Mr. Andrew Shelton, was taken from the officer by a posse and soundly whipped and turned loose.

Money and Men Disappear.

Terre Haute, Ind., Sept. 7.—J. D. Fardes, the cashier of the Adams Express Company, and J. R. Barnett, city ticket agent of the Vanuata, have disappeared, and a package of \$15,000 deposited yesterday by Revenue Collector Jump for shipment to the Cincinnati sub-treasury.

Alfaro in Quito.

Colon, Sept. 7.—The report that Gen. Alfaro, leader of the patriot forces, has entered Quito in triumph, has been confirmed by advices received here.

DISTRICT BOYS WIN AGAIN

Wimbledon Match Won by Another Washington Record-Breaker.

Dr. Scott Beat All Previous Scores and Had Major Harris for a Close Second.

Sea Girt, N. J., Sept. 7.—Notwithstanding the disagreeable weather to-day, the fifth annual meeting of the New Jersey State Rifle Association was concluded.

It was hoped that the Wimbledon cup match would be postponed until Monday, but it was decided to shoot it off today. When the match commenced a drizzling rain made shooting anything but pleasant.

Eight entered, but three dropped out before the completion of the match. S. T. Scott, of the Engineer Corps of the District of Columbia, won, with the high score of 135 out of a possible 150, thus beating the score of 116 made by Peter Finnegan, of the Sixty-ninth Regiment, New York.

Major George H. Harris, of the District of Columbia, was second, with 124, but was allowed six points handicap for using the regular military rifle.

F. L. Graham had a score of 105, and W. W. Goodman 101. Both are Washington marksmen.

Private George E. Cook, of the District of Columbia, won the Hayes medal match. Cook made a score of 67 out of a possible 70. He also won the medal last year.

Lieut. B. Young, of the District of Columbia, won the department of rifle practice match. Young's score was 224 out of a possible 250. The first prize is a fifty-shot badge, to be held by the winner during the first year.

ON FALSE PRETENSES.

James Kirby Arrested and Held for Maryland Authorities.

James Kirby, about fifty-five years of age, who claims to have worked in the interest of the government in Mexico, was locked up in the Eighth precinct police station last evening on complaint of Flick Lawrence, of Rockville, who claims that "the prisoner" "trumped" a board bill at Lawrence's Hotel in Rockville two weeks ago.

Lawrence, it is said, procured a warrant charging Kirby specifically with having obtained money under false pretenses, but the nature of the case could not be ascertained last night as the officers of the Eighth precinct seemed to know nothing of the details.

Kirby is held for the Maryland authorities.

THOSE SICK POLICEMEN.

Dr. Cannon Does Not Believe No. 8 Station to Be Unsanitary.

Referring to the case of the policemen who are suffering with typhoid fever, Health Officer Woodward stated last evening that he had not been officially advised of any existing unsanitary conditions at police station No. 8.

He added that the police department had an efficient corps of surgeons who are supposed to make examinations and reports of the condition of the stations in their respective districts.

Dr. Cannon, in whose district the Eighth precinct is located, stated last night that the sickness of the officers was not, in his opinion, due to the unsanitary condition of the station. He is, however, investigating the matter.

SAVED BY BABY MCKEE.

His Little Cousin Saved From Drowning By Him.

Old Forge, N. Y., Sept. 7.—The young daughter of Mrs. Russell E. Harrison was saved from drowning last evening by her cousin, Benjamin Harrison McKee. Gen. Harrison's favorite grandchild, Henry, and his sister, Mary, were playing about the dock at Dodd Camp, as was also their cousin, Gen. Harrison's nephew, when the young girl fell into the water and ran to her rescue. He pulled her to the edge of the dock, while she hung first to the edge of the dock and then to the arm of the household came out when she was rescued.

Escaped Swindler Arrested.

Springfield, Mo., Sept. 7.—The post-office swindler held under arrest by Chief of Police Hiram as Hogan, on examination tonight before a United States commissioner, turns out to be the much-wanted crook, Allen, who recently escaped from Ludlow Street Jail in New York, and for whom large rewards are offered by the authorities.

Crap-Shooters Caught.

Charles Bell, colored, aged twenty-four years, and Samuel Hudson, also colored, aged twenty-three years, engaged in a game of crap at the corner of First and L streets northwest about 8 o'clock last night and were arrested by Policemen Vandewater and Englehardt and locked up in No. 2 station on a charge of disorderly conduct.

HE DIED TO BE WITH HER

Albert P. Clarke Killed Himself After His Wife's Death.

SECOND ATTEMPT SUCCEEDS

Both Will Be Buried To-morrow Afternoon Side by Side—The Wife Had Been Ill With Typhoid Fever and the Husband Loved Her More Than He Did Life.

Albert P. Clarke, an employee of the Government Printing Office, and an ex-engineer in the United States Navy, committed suicide about 8:30 o'clock last night by shooting himself in the head with a revolver, at his residence, No. 408 H street northwest. Grief over the death of his wife, which occurred only a couple of hours before his own tragic end, was the cause.

For three weeks Mrs. Clarke had been suffering with typhoid fever, and a few days ago the physicians attending her notified the husband that she could not survive the attack.

He had been suffering keenly from apprehension ever since the serious nature of her illness became known, and when informed of the necessarily fatal result of the disease he became frantic.
